Subject: fyi only. update FW: How are things looking in Durango.

Rokha checked in with Chris on-site in Durango (our IT contractor). Our current assessment is that we don't need to send additional resources or equipment. We'll monitor situation closely and let you know if anything changes. See below.

Rokha is acting for Adrea through Thursday, then Tony on Friday.

I understand we have Chris Freed on site now, and he is reporting that there are enough EPA printers for everyone. Please let me know if you see any problems or need anything else.

If you have a chance, give me a call. I don't have any eyes on-site, so would like to better understand what printer and IT support your folks need.

We're prepared to overnight some printers.
